1,100 tonnes

Caunton Engineering were pleased to have been awarded the contract by main contractor Winvic Construction for the structural steelwork for four new units at St. Modwen Park Derby. This park is a 50 acre, high profile industrial & logistics park being developed by St Modwen in partnership with Network Rail. The site occupies a prime position immediately adjacent to Pride Park and Wyvern Retail Park, which will provide high quality logistics and production space.

Phase one of development features four units sized between 39,000 sq ft and 131,000 sq ft, and all framed by Caunton. Total structural steelwork designed and supplied by Caunton for the contract was over 1100te. Erection of the Steelwork for the four buildings is now complete and to programme. Caunton were proud to be working on such an important development.
