

Kingswood Secondary School - Corby

.....
Contractor

Interserve Building

Caunton supplied the steelwork for a new school built in Corby by main contractor, Interserve. Caunton is no stranger to Northamptonshire educational establishments, having helped build two new schools within the Northants PFI scheme – at the time the largest ever implemented.

.....
Steelwork Design

Caunton Engineering

The new Kingswood School, which catered for 1,200 pupils, was built partly on the site of the existing Kingswood School and partly on the site of a former school – the Our Lady and Pope John School.

.....
Architect

Aedas Architects

Caunton supplied 500 tonnes of structural steelwork on a design and build basis, for the two storey structure and its three storey central core.

.....
Engineer

BWB Consulting

The school was a highly regarded specialist arts college. The new facilities included specialty drama facilities, which included its own theatre plus an outdoor amphitheatre, a recording studio, rehearsal rooms and a mirrored dance studio with sprung floors. There was also an atrium roofed with ETFE.

.....
Steel Tonnage

500 tonnes

Architect for this exciting new school was Aedas and consulting engineer was BWB Consulting.
